

The Central Missouri Humane Society Board of Directors supports the spirit and intent of the proposed statute called the “Puppy Mill Cruelty Prevention Act.” Specifically we endorse the purpose of this bill which is “to prohibit cruel and inhumane treatment of dogs in puppy mills by requiring large-scale dog breeding operations to provide each dog under their care with basic food and water, adequate shelter from the elements, necessary veterinary care, adequate space to turn around and stretch his or her limbs, and regular exercise.”

The Central Missouri Humane Society often has to address the adverse impact of unregulated large-scale puppy mill operations when malnourished and sick puppy mill dogs are relinquished to our shelter. Because of this and our advocacy for humane care for all dogs, we wholeheartedly support the spirit of this initiative to ensure that dogs in the puppy mills are given humane treatment.
